Description

A low, oak Portable Card Table.

The baize covered, removable top of this table has 2 brass socket fittings to one half of the underside. They each have a pear-shaped aperture to receive a brass ball fitting to the X frame stand which locks the top to the base.

A similar example in mahogany marked J.H. Lasbrey of Uttoxeter is known and it is possible this table is by the same maker. Circa 1900.
